

What's Wrong With Education Today?

With Keaton, Lukasz, and Praew

Nothing?

Eco-Teaching

Education Starts At Home

- Parents influence their children
 - Children follow blindly
 - There is currently a lack of knowledge among parents

Urgency

Urgency

Why me?

And

Why now?

- Problem with educational approach
- If everyone felt this way, nothing would be done
- Energy sources are running out

Teaching Methods

Hitting the target

with your eyes closed.

Eyes Closed

- Conflicting teaching methods
 - Memorization, not questions
- Connecting facts
 - Learning history but not patterns
- Teaching innovation is missing

(Some) Teachers Lack Passion

*A world without passion is like
a song without a melody.*

(Some) Teachers Lack Passion

- Emotional connection with students is missing
- Younger students must be involved in creative activities
- Balance between emotion and logic in the classroom

Government Support

Government Support

- What's happening now
 - Lack of funding
- What's really important
 - Green education
